TO MANUFACTURE AND DELIVER THE ANIMAL DRAWN CARTS IN THE NORTHWEST PROVINCE FOR A PERIOD OF THREE YEARS.

10. SCOPE OF WORK

10.1 Problem Statement

Communities living in rural and farm areas are confronted with challenges relating to access to public transport and economic opportunities. These challenges have inspired the Department through the Rural Transport Strategy (2007) to initiate the Animal Drawn Cart Project. This initiative has reduced walking long distance to reach social amenities and communities who have benefitted from this project have really appreciated this intervention.

Rural communities have been under serviced and interventions to date have been fragmented and not sustainable and as part of the broader intervention strategy, the Department intends to continue with the supply of new designed animal drawn carts to the rural communities in the Province.

Efforts to improve the traditional animal drawn cart and promote its widespread in the Province started in 2002, whereby the Department appointed SABS to develop standards and private specification for the Province. The standards include comfort and safety features and also all-weather usage with cover without exposing them to the heat of the sun and rain.

The vision for the South African transport system in the White Paper on Transport Policy (1996) is to provide safe, reliable, effective, efficient and fully integrated transport operations and infrastructure which will best meet the needs of freight and passenger customers at improving levels of service and cost in a fashion which supports government strategies for economic and social development whilst being environmentally and economically sustainable. The vision is also applicable to the rural transport strategy and should be implemented.

The Policy goals and objective of 1996 White Paper emphasized overcoming the negative transport effects of the apartheid and the promotion of public transport over car travel. Therefore, the development of non motorised and intermediate means of transport is essential in rural transport context. Thus, the rural public transport provision and services to outreach deep and remote areas form an integral component in rural transport public passenger servicing.

Rural Transport Implementation Plan is strengthening our public and private transport system by complementing it with alternative modes of transport such as cycling and animal drawn carts and intermediate means of transport. Animal drawn transport is gaining recognition and needs to be adapted according to new technological designs.

According to the Rural Transport Strategy (2007), the delivery of rural transport infrastructure and services is identified to comprise of different categories and related delivery actors, amongst these is the rural passenger and (small volume) freight transport services to and from deep rural areas, where operators of LDVs and animal drawn carts are the main service provider.

Given the above background, the Department of Community Safety and Transport Management therefore request bidders to tender for the design, manufacturing and distribution of the animal drawn carts (ADC) as a form of improving mobility and accessibility in the rural areas for a period of three years.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
