1. INTRODUCTION

The purpose of the submission is to request the Head of the Department to approve specifications for advertisement of the tender to appoint suitably qualified and experienced companies to lease, operate, manage, and provide maintenance at GD Montshioa and or Pilanesberg International Airports for a period of nine (9) years.

2. BACKGROUND

The Department of Community Safety and Transport Management in the North West Province is mandated to operate the two provincial airports, which are GD Montshioa Airport and Pilanesberg International Airport. GD Montshioa is located in the outskirts of the Capital City of the Province, Mahikeng in the Ngaka Modiri Molema District Municipality while the Pilanesberg International Airport is located in the Mogwase area in the Bojanala District Municipality.

Air transportation has become essential to our global society as a driver of economic, social and cultural development and has totally changed how we travel around the globe, interact with others and do business. It would be difficult to envisage a world without aviation, hence the importance of revamping the two airports.

3. SCOPE OF WORK

3.1 Problem Statement

Both airports are currently SACAA category two (2) licensed aerodromes. There are several issues which are compromising compliance of the two airports for which, the Department established a committee to assess, monitor and attend to, to ensure that airport complies to the SACAA prescripts. If these are successfully handled the airports could be upgraded to SACAA Category 5 for GD Montshioa and CAT 6 for Pilanesberg International Airports, respectively.

Government funding is insufficient to operate the two airports let alone addressing the non-compliances such as; training of personnel, maintenance of aeronautical and non-aeronautical infrastructure, the terminal building, runways, runway lights, PAPI lights, security equipment, annual runway friction tests, servicing of x-ray machines, Aircraft fire simulator, CCTV cameras, Change over switch for generator, Landscaping and gardening, Standby generator, Fire truck service and tools, Runway re-sealing/surfacing, Radio, communication and crash alarm, Emergency Control Centre/Medical room equipment, Aircraft flight procedure manuals, Isolation room, Upgrading, extensions and face lift of other fixed structures, Servicing and maintenance of equipment, Firefighting tools and PPE, SACAA Aerodrome Licence, Radio Equipment, Painting of runway, taxiway aprons, pavement and walkways, Protective clothing's, cracks fixing, ATNS Tower lighting and renovations, Materials and spare parts for fire trucks.

Preference Point System

In terms of regulation 6 of the Preferential Procurement Regulations pertaining to the Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000), responsive bids will be adjudicated by the State on the **80/20** or **90/10** preference point system and the highest acceptable tender will be used to determine the applicable preference point system.

The following formula will be used to calculate the points for price:

$$P_s = 90 \left(1 + \frac{P_t - P_{max}}{P_{max}} \right) \quad \text{or} \quad P_s = 80 \left(1 + \frac{P_t - P_{max}}{P_{max}} \right)$$

Where

P_s = Points scored for comparative price of bid under consideration

P_t = Comparative price of bid under consideration

P_{max} = Price of highest acceptable tender.

A maximum of either 20/10 points may be allocated to a bidder for attaining their specific goals
